SYNOPSIS OF COAL MINING REGULATION ACT
Coal mining rights of the Dominion in Manitoba, Saskatchewan, Alberta, the Yukon Territory, the North-West Territories and British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1.00 per acre. For more than 2,000 acres will be leased to one applicant.
Application for a lease must be made to the agent or the district in which the land is situated. In every instance the land must be described by sections, or legal subdivisions of sections, and in quadrangle territory the tract applied for shall be marked out.
Each application must be accompanied by a fee of \$1.00, which will be refunded if the rights applied for are not available but not otherwise. A royalty shall be paid on the ascertainable output of the mine at the rate of five cents per ton.
Every lease of coal mining rights which are not being operated shall furnish the district agent of Dominion Lands with a sworn statement to that effect at least once in each year. The lease will include the road mining, and only, but the lease may be permitted to purchase otherwise available surface rights may be considered necessary for the working of the mine at the rate of \$50.00 per acre.
For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. Carr,
Deputy Minister of the Interior.

PREPARATIONS FOR BIG FAIR

WORK ON DOMINION EXHIBITION BUILDINGS IS PROGRESSING.

WILL BE BIG EVENT

Something About the Work that is Being Done—Administration Building Nearly Completed—Workmen Preparing for Biggest Meeting Ever.

The construction of the various buildings and other necessities at the Calgary fair grounds is going along splendidly. The great industrial building is gradually nearing completion, the new stables and other buildings are showing signs of form and shape, and the administration building is finished painted and ready for occupancy.

The latter building will be the center of everything that goes on in Victoria park when the Dominion fair is on. From it everything will be directed. Here everyone will go for information and to learn what can and what cannot be done. It is here men will come in trouble and when lost. Everything is in the administration building. It is the heart of the fair. The secretary and manager of the exhibition will be located there in a neat little office, the police will have regular quarters here and the fire department has a miniature fire hall in one and that will accommodate either No. 1 chemical, its crew and horses or else a hose wagon furnished with extinguishers.

In the building also will be a post-office and a bank and there will be accommodation for the press and for other officials besides the secretary and manager. From this handsome building the staff controlling the great fair will radiate out over the 92 acres of ground, and anyone wanting anything will find it at the administration building.

Nowadays there is much doing on the ground. The new buildings are being rushed, the stables are being redressed and repainted. Conveniences are being installed everywhere and the track itself is a scene of bustle and hurry. The city gang is working on it, dragging and rolling and dragging and rolling again, the rough edges of the course are being trimmed and sodded, preparations are under way to fence the track and all the time the stable boys, jockeys, trainers and other frequenters of race tracks and stables are preparing the handsome thoroughbreds for their supreme trials this summer. Trotters, pacers and gallopers flash around the half mile oval doing their regular training stunts and getting down to the proper edge to do their best.

All is stirring and moving, and everyone is doing his best to make the grounds something creditable to Calgary and Alberta when the big days come.

QUALITY FOR OLYMPIC STORTS

At the Port Saskatchewan Victoria day sports this year, 25th May, a new event in the program is a road race from Edmonton to Port Saskatchewan on the Red River at the latter place, the distance being approximately 19 1/2 miles. By permission of the Canadian Amateur Athletic Union this race will constitute the Olympic Trial Race for Alberta, the best man in the race securing the privilege of going to Toronto to compete there for the honor of representing Canada in the Olympic Races in London, England. A further incentive to runners in the Port Saskatchewan Road Race are valuable prizes consisting of a cup, value \$100.00, for the winner and gold medals, value \$25.00 and \$15.00 for second and third respectively.

Intending competitors are requested to immediately send in their entries to R. Gordon Fraser, secretary, Port Saskatchewan sports committee.

MANY IMMIGRANTS COMING

Herbert Vanderhoof, late secretary of the Western Canada Immigration Association and editor of Canada West, says that from advices he has received from various sources he believes that immigration into Western Canada this year will exceed that of the record breaking year of 1906.

The Canadian government's American agents report that the number of enquiries this year is much larger than last and they also say that the character of the enquiries is also better. In fact things at present are very much the same as they were in 1906, and everything looks as though 1908 was going to break the record.

Whole colonies are becoming interested and many enquiries have been received from different sections of the states with the object in view of bringing whole colonies into western Canada.

One of these has already purchased a tract of land and several families have arrived. This is a German Lutheran colony from Hastings, Neb., and the settlers were through the west some time ago and purchased a tract of 35,000 acres in the Tramping Lake district, in the vicinity of North Battleford, Sask.

Several of the families have already arrived and they all are in good circumstances and able to make the best of their advantages.

ADDITIONAL LOCALS

C. P. Hill and Mrs. Hill returned Wednesday morning from their eastern trip.

The Christian Endeavor society will hold a picnic tomorrow afternoon. The members will meet at Knox church at one thirty in the afternoon. J. Halstead, assistant general freight agent of the C. P. R. with headquarters at Calgary, visited Frank yesterday.

Local improvement district 3-A has invested in a road grader and will put the route of the Mountain Mill section in good condition this year.

The Rev. Haddon will hold services Sunday at Pasquage at 11 o'clock in the morning, at Bellevue at 2 30 in afternoon and at Frank in the evening.

The Nelson Daily News has changed hands, F. J. Deane, the former proprietor, having sold to a syndicate. The News will no longer be conducted as a liberal paper but will be independent, it is stated, with a conservative leaning. At the time of the change, the Canadian, the evening paper went out of business.

The first session of the district court is to be held in The Pass convened at Blainville this morning with Judge Carpenter presiding. A session will be held in Frank tomorrow. The most important case to be tried here is the appeal of C. P. Hill from the conviction and sentence of fine passed by Magistrate Bolcher last fall for violation of the Lemoine act.

The work on the government road between Blainville and Coleman has been started by the department of public works, thus affording considerable work for the men of the district who have laid idle so long. It is understood the work is to be apportioned among those who wish it, each man being allowed to work a given number of days in order to benefit as many as possible.

F. W. Deubt who was one of the early day residents of Frank but who has resided at Mountain Mill the past five years, visited Frank yesterday. Mr. Deubt is a good deal of a functionary in his community, being manager of the Dobble lumber yard, weed inspector, justice of the peace, chairman of the local improvement district 3-A and secretary-treasurer of the Coalfield school district. Mr. Deubt's friends here are afraid that if he keeps on he will become an out and out poseur. Mr. Deubt was here in his capacity of weed inspector and exhibited pictures of the various weeds that are considered noxious.

BUYS INTO CEMENT CO.

D. C. CORBIN OF SPOKANE-INTERNATIONAL RAILROAD INTERESTED.

THINKS IS BIG THING

Visited Frank to Look Over Property—Says Spokane Offers Big Market for Portland—Mr. Corbin Will Build Road from Spokane to Flathead.

The Rocky Mountain Cement company has been given a big lift, through having one of the greatest of Western American financiers become interested in it. The individual in question is D. C. Corbin, president of the Spokane-International railroad company who has had a conspicuously successful career as a financier and railroad builder in the West.

Mr. Corbin visited Frank Tuesday and in company with Vice President W. J. Budd of the cement company, inspected the building operations now under way on the company's plant at Blainville. Mr. Corbin was strongly impressed with the proposition and to The Frank Paper expressed the belief that it would prove a most successful undertaking. Mr. Corbin stated that Spokane offers a big market for the product of the company in addition to that afforded by the cities of western Canada and said he could not see how the company could fail to be immensely successful. Mr. Corbin has taken a block of stock in the company and will likely be placed on the directors.

Mr. Corbin stated that he is now engaged in the preliminary work in connection with his railroad project to the Flathead. He was granted a charter last winter by the British Columbia legislature for a road from McIlwaine on the Crown line to the headwaters of the south branch of Michel creek where he has large holdings in coal lands. Mr. Corbin stated that as soon as the engineers have in the field, have completed locating the line, he will start building operations and that he expects to have the road completed by September. He will then commence the work of opening up his coal property.

COAL SYNDICATE FORMED

A new coal company or syndicate was formed in Frank Monday to operate in Flathead coal lands. The members of the syndicate have issued thirty coal claims in the Flathead country. All of them have come together in one concern for the purpose of dealing with the holdings.

The syndicate was organized with S. M. Moore, president; G. C. Heston, secretary; J. H. Farmer, treasurer and a board of directors composed of these officers and in addition George H. Scott and A. S. Farquharson. It is proposed to prospect the lands this summer.

Football League Meeting.

A meeting of the Crown Nest Pass football league was held Saturday at the Grand Union hotel, Coleman, when the league was re-organized for the season. The towns to be represented in the league this year are Coleman, Michel, Homer, Bellevue, Coal Creek and Fernie, for each of which a place club was entered by an accredited representative. The officers elected were: Honorary president, R. G. Drinnan, Homer; honorary vice president, O.E.S. Whiteside, Coleman; president, Thomas Graham, Michel; vice president, W. A. Chappel, Bellevue; secretary-treasurer, Jonathan Graham, Coleman.

The schedule provides for thirty matches. It was decided to provide gold medals for the players of the team winning the championship.

All games are to be played under the English association rules. Several of the clubs are spending considerable money in the preparation of their grounds and in those it is particularly among the clubs a spirit of the first order is assumed.

THURSDAY, MAY 7, 1908.

THE DOCKHOBBS.

The campaign of slander against the government, carried on in the opposition press, touches on immigration matters from time to time; and whenever this is the case, any acknowledgment of the progress which the country has achieved as a result of the liberal policy is studiously avoided and every artifice is used to leave the impression that the government is responsible for what ever is not of the best in the stream of incoming settlers. The "gutter snipe" journalist finds, in the vagaries of the Fort William Dockhobbs rich material for the exercise of his particular genius.

The sentence of 19 to six months' imprisonment for indecent conduct was made by the Citizen on Saturday, the text for an attack on the Dominion government and its immigration policy. The Citizen alleges that the Fort William Dockhobbs were thrust on the province and that their fellow-countrymen remaining in Saskatchewan, set the laws at defiance. In summing up its views, it says the conditions under which the Dockhobbs are living in Canada lead to two alternative conclusions; either the large majority of the adults should be in the penitentiary or they should be deported.

If the large majority should be in the penitentiaries, then it is just as well that everyone should know upon whom rests the responsibility of putting them there. It certainly does not lie with the Dominion government. The Dominion government must, of course, assume a measure of responsibility for their introduction into the country, but it has no authority to deport them after they have been here for seven years, nor is it a part of the Dominion government's duties to see that they conform to the laws. That function of government belongs to the province themselves.

The Dockhobbs at Fort William were not thrust on Ontario any more than any other people who from time to time break the laws and are punished by the courts are thrust upon the province. They, in the exercise of their rights as residents of Canada sit to leave Saskatchewan and enter Ontario. They were at liberty to do so, just the same as anyone else is at liberty to change his locality or place of residence. There was no law to prevent them. It was then, on their advent into Ontario, for the Ontario government to see that they conformed to the laws of the province.

But, instead of doing this, the provincial government has been guilty of knowingly permitting them ever since they came within its jurisdiction, to indulge in law-breaking conduct. The provincial government allowed it to continue with full knowledge of the facts. Why the provincial government permitted it to continue for so many months to the disgrace of the province is for that government to say.

So long as what are now the western provinces were under territorial government and the Dominion government was charged with the administration of the law, so long were the Dockhobbs made amenable to the law. When they outraged decency, as those at Fort William have done during the past winter, they were promptly put in jail. But, when the provincial governments were organized the authority and responsibility of the Dominion government greater resided in the provincial governments. The reason the Dominion government had taught the Dockhobbs seemed, however, to have been sufficient to deter them from such exhibitions in Saskatchewan as they have since given in Ontario. It was not until this Dominion party had arrived at Fort William and found they were under the Ontario government that they saw fit to outrage decency as they have been

for the past six months.

It is convenient—and seems to be the custom—for its opponents to rail at the Dominion government for every occurrence that does not suit them and in the next breath, to protest against the Dominion government's alleged interference with provincial rights. Canada is a confederation of provinces, with certain powers and responsibility in the hands of the federal government and certain other powers and responsibilities in the hands of the provincial governments. The provincial governments must be held responsible for the discharge of their duties, as well as the Dominion government for the discharge of its own.

As to the deportation of the Dockhobbs, which the Citizen so blandly suggests, Parliament has not yet conferred the authority which would enable the Dominion government to deport them after they have been domiciled in the country for the period they have been. Until parliament does, the Dominion government has no warrant to act. The court would not permit it—Ottawa Free Press.

LOCAL ON JUNE 14TH

General Superintendent A. Price of Calgary was in the city this morning for a few hours, says the Lethbridge Herald.

The local running between Medicine Hat and Cranbrook goes on June 14 and will connect with the transcontinental trains at the Hat. The time has not yet been arranged but it is probable that the east bound local will reach Lethbridge about four o'clock in the afternoon and the west bound between eleven and twelve in the morning.

The arrangement will obviate the sleeping car grievance that the Lethbridge people have, reservations being made at the Hat for berths on the transcontinental. Mr. Price did not say so but there is a possibility that a part of the sleeper accommodation will be reserved for the Crows Nest traffic.

News arrangements have been made for the handling of local freight between Winnipeg and Lethbridge. Straight cars for Lethbridge will be loaded at Winnipeg and handled by the seaboard freight giving the fastest possible service which will be as good as the carload service.

Heating This Country.

The O. W. Kerr Co. have adopted a novel and effective scheme for advertising this country. They have sent out two lecturers with stereoscopic views of Southern Alberta who are traveling through Wisconsin, Minnesota, Iowa and the Dakotas, giving lectures on the country. The

company recently had their photographer take a large number of views for that purpose. Reports come in that the halls are crowded with people eager to know all about this land of sunshine and success. The lecturers are well posted on all matters pertaining to the country and answer the many questions that are put to them during the lectures as well as between times. The company is preparing to send out a third lecturer at once.

Frank News in Brief

Buy your clothing of A. V. Long. Telephone No. 67 for fresh eggs.

Alce Gayette, dealer in furniture and wall paper.

A sad mishap befell the family of John Shevchuk of Coleman last Saturday when a young child was drowned by falling into a well.

J. U. Wilkie, secretary-treasurer of the Alberta Coal company returned Tuesday from a week's visit to Winnipeg.

The largest life insurance policy ever written in Canada was written last week on the life of A. C. Plummer, president of the International Coal & Coke company, the Alberta Coal company and the Royal Collieries. The policy is for \$250,000.

A minor difficulty tied up the mine of the International company at Coleman a part of last week by the men going on strike. The matter was adjourned by the men deciding to return to work pending an adjudication by the arbitration committee of the operators and mine workers.

The fire brigade met Tuesday evening and decided to begin athletic practices and fire drills at once. Tuesday evening of each week will be devoted to athletics and Friday to boxing and fire drill. All members of the brigade are expected by Chief McGowan to govern themselves accordingly.

The annual shareholders meetings of the Alberta Coal company and the Royal Collieries were held at Coleman Monday and Tuesday respectively. The business of the meetings consisted of the submission of the balance sheets, the directors' reports and the election of directors. Practically all the old directors were re-elected in each case.

General Manager S. W. Gelo of the coal company is absent this week, visiting points in the states.

Minister of Public Works W. H. Cushing is visiting The Pass to-day, looking into the telephone service and the public work to be done in the district.

G. C. Rochford went to Macleod Monday evening to testify in the case of Mike Phillips whose trial for the murder of Monte Lewis was commenced Tuesday.

Provincial Coal Mine Inspector Norman Fraser and his assistant, E. Heston, held examinations in Frank Tuesday of applicants for fire boss certificates. There were five applicants.

The east bound passenger train en route west of the rail a little east of Timber Friday morning, feeling up about a hundred ties. The train was delayed about an hour. This is the same engine that went off at Grassy Lake going west two days before.

The Great Northern railway extension from Perle to Michel has been practically completed and will be handed over by the contractors to the company this week when it is expected that passenger and freight services will be inaugurated and in operation by May 10.

The board of trade held its regular meeting Monday evening. Among other matters considered was the entertainment of the Spokane chamber of commerce excursionists which was laid over to the next meeting; the exhibit for the domestic fair at Calgary; for which a committee was appointed to interview Mr. Gebon on the subject and the fixing of the date for the board of trade banquet which was set for the 25th of this month.

To Our Patrons

and the General Public of The Pass:

Owing to our increasing trade in The Pass we have decided to place an "Ad" in The Frank Paper and let our friends and the general public know from time to time what we have to their advantage.

We claim to have the best Blacksmith and Carpenter Shops West of Winnipeg.

We have between four and five thousand dollars worth of machinery in these shops and everything, even to blowing the fires is run by steam. We have five blacksmiths and two wheelwrights. The combined result is that we are able to turn out work on the very shortest notice and you will find prices right. Trust us with your business and it will receive our careful attention. The next time we will tell you something about our facilities and machinery.

Yours for Business,
Scott Bros. Fletcher Creek.
